TUBE-FORM

Adding quality:

- **INTEGRATED END-FORMING, MILLING AND REMOVAL
IN JUST ONE PROCESS**

All **machining** related to endforming, milling and removal are **integrated** in one process, for the highest degree of accuracy and repeatability

- **HIGHEST DIAMETER/END-FORMING RATIO**

Due to a special clamping system all machining is made on the tube bend without **straight part**

- **MACHINING TUBE ENDS WITHOUT STRAIGHT PARTS**

Tube component for aluminium boilers with diameter 20, thickness 1.5 mm produced in one cycle with a **fully electric** end-forming machine BLM Tubeform

Our staff is at your disposal for any clarification, information and/or practical demonstration. Contact:
